SUMMARY

Digital and product designer with 9+ years of experience crafting intuitive, user-centered experiences across web and mobile platforms. I partner with cross-functional teams to turn complex problems into simple, impactful solutions that drive business goals and delight users. I bring a thoughtful approach to design, a focus on clarity and accessibility, and a passion for continuous learning and innovation.

WORK EXPERIENCE

Sunrider International — Global Email Designer | Global Beauty & Wellness (US, Canada, APAC, EMEA) | Feb 2024 – Present

- Produce over 40 monthly digital campaigns across global markets, owning responsiveness, accessibility, and brand consistency at scale.
- Contributed to the highest attributed-revenue month in company history through coordinated, conversion-focused digital execution — partnering hand-in-hand with marketing and product.
- Localize and adapt experiences for diverse regional and multilingual audiences; mentor specialists on standards and workflow.

Apptricity Corporation — Product / UX Designer | Enterprise Asset-Tracking & Supply-Chain Software, B2B SaaS | Oct 2022 – Feb 2024

- Designed enterprise software focused on asset tracking, inventory management, and supply-chain operations for logistics-heavy organizations, building expertise in complex workflows, operational tools, and data-rich systems.
- Led end-to-end product design from discovery and wireframes to high-fidelity prototypes, functional specifications, and engineering handoff while collaborating cross-functionally with product, engineering, and executive stakeholders in agile environments.
- Created lead-generation and customer engagement experiences including HubSpot chatbots, landing pages, marketing funnels, presentations, whitepapers, trade show signage, and other marketing collateral.
- Championed user-centered design practices by facilitating design reviews, improving UX consistency, reducing rework, and mentoring junior designers.

Mary Kay Cosmetics — UX Designer | Consumer / Beauty, Mobile Application & Responsive Web | Nov 2021 – Feb 2022

- Conducted user research and usability testing for a consumer mobile app; translated findings into wireframes, prototypes, and user flows.
- Produced a full responsive navigation redesign (mobile + desktop) with a supporting UX audit — a self-directed product-design case study.

Mouser Electronics — Digital Designer | Global Technology E-Commerce Distributor | May 2017 – Nov 2021

- Built and scaled digital experiences for a global e-commerce audience — web pages, landing pages, programmatic ads, interactive infographics, and campaigns — from concept to launch.
- Led the global rollout and team training for a new creative platform (Bannersnack / now Creatopy), authoring the SOPs, documentation, and design standards that kept a distributed global team consistent — design-systems thinking in practice.

- Maintained a uniform brand identity across many channels and regional markets while juggling multiple concurrent projects on tight timelines.
- Partnered closely with marketing and sales to turn business goals into clear, engaging digital design.

EDUCATION

Bachelor of Fine Arts — University of Texas at Arlington, 2011

CERTIFICATIONS

Web Applications Developer — University of Texas at Arlington, 2015
